We have had no such man before at the head of our armies in the field. He is meither traitor, nor largard, but very clearly, so far, a mighty han of war, such as the Lord loved in the old fighting days of the Hebrews.

What if Hocker has recrossed the Rappahannock? He was not driven over by the enemy, nor was his retreat a scramble for life, or a Buil Run panic, or instigated by any fear of the Southerner's cannon. It was a necessary strategy, made such by the sudden rising of the river ten feet in about at hours; and on the other side of it alone could be get supplies. He planted

What, then, is the good of our mouthing and mumping? We are not at all sure the bad news is nearly so bad as it is reported in the secusion sheets of New York—the Heraid and the World. And it is quite certain that the wary New Yorkers do not put much faith in it. Gold opened this (Thursday) morning in that rity all ast night's prices, (from 51 to 52) and rose only to 57, and fell back finally to 54, which is very significant.

THE ROUTE.

Our route to day lay through a fertile tract of country, over a road cut along the levee hy the Pioneer Corps. The track was exccrable and our progress was necessarily ledious. We halted for an hour or two at the crable and our progress was most editions. We halted for an hour or two at the plantation of Capt. Holispre, formerly of Massachusetts, and after an hour or so went into camp at Smith's plantation, three miles north of New Carthage. The country through which we passed this day, was not under quitivation. The soil resembles that of the prairies of Iilmois, and is capable of sustaining a dense population. We found the planters absent with their negroes and most valuable personal property. The Sabbath is the negroes' holiday. They lined the road dressed in funciful attire, and testified their delight at our approach by good natured griss and clapping of hands. I noticed no evidence of the desolation which follows the track of a large army. Corn and cattle were abundant, fonces were undisturbed, and the whole landscape, except so far as the movement of our own except so far as the movement of our own army gave life and animation to the scene, was as quiet and pastoral as a Sabbath in New

Notwithstanding the rain we were off again as and baggage wagons, to that extent that we made scarcely five miles before the shades of made scarcely five miles before the shades of night began to gather, and we were forced to go into eamp again. Here at the plantation of Joseph House, I was fortunate to obtain a bed, a luxury which a campaign of some days duration bad caused me to properly appreciate. I learned here of the whereabouns of Mrs. Love, the dangher of Judge Rueker of Chicago. Her husband, a planter of means in this vicinity, has within the last few days been consertiged into the Bouthern army. It was near this point that Gen. Grant has established his headquarters.

WASHINGTON CORRESPONDENCE.

Special Correspondence of the Chicago Tribune.) Wasmington, May 4, 1668—10 p. m. News received since this afternoon's letter News received since this afternoon's letter only tends in the main to confirm the general impression that, thus far, success has crowned the operations of the army. The rumor has bren in active circulation on the street that the robels under Gen Early had, to day, sitacked the small body of our troops in possession of Fredericksburg, and, after a brisk contest, had recaptured their entronchments. Careful investigation, however, leads to the belief that, thus far, the statement is entirely unwarranted by any authentic news that has reached the Capital.

The details of Saturday's fight at Chancellers ville confirms the opinion already expressed, that, on the whole, it was a decided reverse. The story is that we lost from 2,000 to the latter were retaken the following morning, incomping the outgrachments at Ecolorius.

THE HAID IN WESTERN YIRGINIA.

The rebel raid in Western Virginia is not yet abandoned. Gen. Jones, who ravaged Morgantown, last week, and so seriously demaged the Baltimore & Ohio Raifrood, has made a junction with Imboden and Jacksom, at Beverly, and the guerillas of that section are concentrating reinforcements and supplying them with fresh horses. Unless stores is sent speedly to Graffon, to concert with our troops now at Clarksburg, these three leaders will make a decent upon Parkerburg, and, if not there checked by the Ohio militia, upon Wheeling. Both these points are now but feedly protected.

It is well known that the Sugar River Valley Raifroad Company, a year or two ago, secured from the Legislature so much of the old LaCrosse land grant as was designed to aid in building the forty miles between this city and Portage. Last fall, and during the early part of the winter, work on the road was vigorously prosecuted. The di-rectors of the road maloly reside south of here and are much rose savious to secure here, and are much more auxious to secure the building of the Sugar River Valley road the building of the Sugar River Valley road proper, running from Brodhead or the State line to this place, than for the completion of the read between here and Portage, not able to see that the strongest indocement that could be offered to any strong connecting road to aid in the completion of the southern division would be the actual existence of the northern division, with its splendid connec-tions through the Informatical Connections through the I tions through the LaCrosse Railroad; not being men of great experience in business matters, or of remarkable sagacity, and a good deal afraid of being cheated, the directors have been running to and fro between the Northwesternand Galena Railroad Companies, seeking aid to put their road through, till the stockholders have become impatient, and fearful that the whold thing would come to

the stockholders have become impatient, and fearful that the whold thing would come to nought.

At the meeting to day the whole matter was freely talked over. It was thought that if the Northwestern Raifrond Company had secured the connection spoken of in the Tribuse of Saturday, through Wateriown, and the building of twenty-live miles from Columbus to Portage, there was of course no inducement. For them to take hold of this enterprise. It seemed, however, as if the Galma and Chicago Union Raifread Company—the Beloit and Madison branch, of whose road will be completed this season—might make a very good thing by taking hold of the Madison and flortage part of the road, burrying up its completion, and thus, by connecting with the Western Michael of the Chicago and Northwestern Wisconsin and Minnesota. Accordingly, Messrs, B. F. Hopkins, D. Atwood, and D. E. Tenney, were appointed a committee to confer with the officers of the Galena and Chicago Union Railroad Company, and see what they would do in the matter.

and the Constitution, should throw no obstacle in the way of the most searching inquiry.

The SALE OF THE MATERION PROPERTY.

There were some errors in the telegraph report sent from here's law day prior, concerning the sale of the, Matteton proporty. It would appear from the report that Mr. Starne was the only State official who had anything to do with the sale. The fact is, that Hon. Jesse K. DaBois, State Auditer, was associated with Mr. Starne, and the latter could do nothing without his advice and consent. The only material difference, as I understand it, in their fortunes is that Mr. Starne will get about \$8,000 or his services, while Mr. Buffols works for nothing and finds himself. The sale however, would have taken place in due course, as it has, simply because the former Sias Tressurer, Mr. Buffer, and Mr. DaBois had long street taken all the necessary legal steps in the matter. This would have paid the State the \$5,000 which Mr. Starne is to necesse for his services, that's all. If Mr. Buffer had been elected, I have no idee a Democratic Legislature would give him \$7,000 for his officiating at the present day. It is but a one-side affair to make the best of it.

It is supposed by many that Gov. Matteson will now return home and redeem fast portion of his property bought in by the State at the lowest figures—say, the homestead here, the property in Cairo, de. The property in Cairo, de. The property in Cairo, de. The property in at about its fall value.

ty in Chicago is thought to have been bought in at about its full value.

OOL. DOUGHERTY'S REMOVAL.

I am sorry to see that the gallant Coi. Henry Dougherty, Commandant of the post at Paducah, Ky, has been ordered to the field by Gen. Grast. This will no doubt compet the Colonel to resign, as his wounds, received in the service, (having, lost a leg at Belmont,) incorpectate him from active field tuty, it is charged by Coi. Dougherty's friends that Gen. Grant has issued this order at the request of a semi-accession. Kentucking, who was of a semi-accession. Kentucking, who was of feeded at his action of the Colonel in sentematter of trifling import. There is no thore loyal man than Coi. Dougherty, and no man who has shown more bravery in the field, and these acts of our General officers are creaking much dissatisfaction. Coi. Noble, formerly Commandant at Paducah, has been dismissed the service, through the instrumentality of Gen. Grant. No more loyal man than Coi. Noble could be found. In fact, it is probable that his views and acts respecting negroes and secessionists were the reasons that brought down upon his head the anger of these in authority. Froslavery West Pointism is not yet dead in our army, A am sorry to say.

A CRUER CRASSER.—Apart from the general horrors of the ba'tle field, the reporters' accounts of the strife, the long lists of killed who shall never more answer the drum call, there are private casualties, rendings of familyties, heart-rending griefs at the hearth-stone, which are never included in the daily chronicles, never mentioned on the bulletin nor in the official report. After one or two year's axperience in this terrible war—the tidings—drecthoussand men killed—causes a temporary shudder, and we forget it in the shouts of victory, or in defeat deplore it a brief time, and wat until the tidings shall again amounce triumph.
